

③ (U/IUO) The question arose regarding what other testing was being conducted by the Agency today. The Director noted that polygraph examinations were being conducted on employees and that some psychological assessments were being made on employees and individuals who may have future association with the Agency, such as agents. Senator Edward Kennedy (D., Mass.), Chairman of the Subcommittee on Health and Scientific Research, asked the DCI to provide him with any additional information on this general subject and the DCI agreed.

④ (U/IUO) Senator Walter Huddleston (D., Ky.) asked the DCI about the identity of a man named "Ray." The Director said we had not yet been able to identify this individual but that if we did, we would provide that information to the Committee. Senator Huddleston also wanted to know about activities reported in the New York Times concerning work done in the U.S. Public Health Hospital in Lexington, Kentucky, involving a Dr. Harris Isbell.

⑤ (U/IUO) Senator Richard Schweiker (R., Pa.) asked the DCI for any further information that could be provided on what work was done by CIA in the 1/6th of the hospital wing that was constructed after the \$375,000 donation through the Geschikter Foundation.

⑥ (U/IUO) Senator Malcolm Wallop (R., Wyo.) asked what information the Director had on drug testing being done in other countries. The Director provided a general response and promised that he would pass additional information to the Committee.

7. (U/IUO) There was a long discussion with the Committee about whether the Agency had attempted to contact Dr. Sidney Gottlieb regarding the information obtained in this new find. The Director responded by stating that we normally did not go out and question former employees in a matter of this nature. Several Members stated that they believed that this should be done and the Director said that he would talk to his General Counsel and the Department of Justice regarding this matter.

8. (U/IUO) Reference was made in the hearing to projects CHICKWIT and OFTEN. The Director said that he was aware of certain of these projects which were sponsored by the DOD. He stated that he would look into this activity

We have been requested by the Senate Select Committee on Intelligence and the Subcommittee on Health and Scientific Research, Senate Committee on Human Resources to provide further information on certain subjects. At the open hearing on 3 August the DCI assured the Committees that we would cooperate fully with those requests. Attached is a copy of a portion of the memorandum from that hearing. I would appreciate the comments of your office in regards to the marked paragraph by COB 19 August.

Thank You.
